

APPENDIX C

TECHNICAL METHODS AND DATABASES

NOTE: This appendix and the references associated with it, refer to the historically used radioactive waste terms, sodium bearing waste (SBW) and newly generated liquid waste. These terms have been used at the INEEL over the years to describe liquid radioactive wastes generated in association with high level waste and other waste management activities.

In July 1999, the Department of Energy published DOE Order 435.1 "Radioactive Waste Management." This Order establishes terms and definitions for radioactive waste. The radioactive waste terms used in the main body of this Idaho HLW & FD EIS refer to the terms specified in the Order. In most cases, this EIS parenthetically refers to the historical waste term.

To assist the reader in corresponding the historical radioactive waste terms used in this appendix with radioactive waste terms used in the main body of this EIS and the Summary, a cross-reference table has been provided in Section 1.2.2 of Volume 1 of this EIS.
